## Creampie

Creampie is used as a **scene-ending and tagging label**. It does not describe a studio but acts as a keyword that allows users to filter for a specific style of scene conclusion. This tag is widely used in both premium and free platforms.

## Best Creampie Gangbang

This is a **curated sub-category** built from two major keywords. It is typically used for **top-rated, trending, or editor-picked** scenes inside this niche. Adulttime uses this label to highlight premium collections.

## Party Girl Creampies
