Call +1 (844)496~4128(USA) +1(844) 496-4128(US) if you have trouble logging in because your password may have expired or your account may be locked due to multiple failed login attempts requiring you to reset your password through the "Forgot Password" link on the login screen before trying again. Step 3: Once logged in, tap on "My Trips" or "Bookings" at the bottom of the app screen. Call +1 (844)496~4128(USA) +1-844-496-4128[USA] if your booking does not appear automatically which may happen if you booked through a travel agent rather than directly with Emirates or if your booking was made under a different name or email address than the one you used to log into the app requiring you to add the booking manually using your last name and booking reference Number +1(844)496-4128(USA) through the "Add a Booking" feature. Step 4: Select the flight you want to reschedule from your list of upcoming trips. Call +1 (844)496~4128(USA) +1 (844) 496 (4128) (USA) if you see multiple bookings and are unsure which one is correct because you may have several upcoming trips booked with Emirates for business and personal travel that need to be distinguished by flight Number +1(844)496-4128(USA) , destination, or travel date before making any changes. Step 5: Tap on "Change Flight" or "Modify" option below your flight details. Call +1 (844)496~4128(USA) +1(844) 496-4128(US) if this option is grayed out or not clickable because your ticket type may not be eligible for online changes through the mobile app and you may need to use the full website on a computer or Call +1 (844)496~4128(USA) the customer service center directly to complete your rescheduling through an agent who can override system restrictions that apply to certain promotional fares, group bookings, or tickets that include special services. Step 6: Select new travel dates from the interactive calendar. Call +1 (844)496~4128(USA) +1-844-496-4128[USA] if the calendar does not allow you to select certain dates because those dates may be blacked out due to peak travel seasons, holiday periods, or events where Emirates has restricted availability for changes or upgrades requiring you to choose alternative dates or Call +1 (844)496~4128(USA) an agent to check for waitlist options. Step 7: Choose your new flight from the available options displayed. Call +1 (844)496~4128(USA) +1 (844) 496 (4128) (USA) if the app shows no available flights for your new dates because all flights may be fully booked, the schedule may not have been published yet for future dates beyond the current booking window, or there may be technical issues with the app's availability display that require you to check again later or use the website instead of the mobile app for better results. Step 8: Review the fare difference and any applicable change fees. Call +1 (844)496~4128(USA) +1(844) 496-4128(US) to understand why fees are being charged and whether they can be waived based on your original booking date which may fall within a promotional period where change fees are waived for all passengers regardless of ticket type or fare class as long as the original booking was made between specific dates that Emirates publishes on their official website. Step 9: Confirm the change and pay any

fare difference using Apple Pay, Google Pay, or credit card stored in the app. Call +1 (844)496~4128(USA) +1-844-496-4128[USA] if your payment fails because Apple Pay or Google Pay may not be supported in your region, your stored credit card may have expired, or your bank may have blocked the transaction as suspected fraud requiring you to call your bank or use a different payment method. Step 10: Receive your new booking confirmation within the app and via email. Call +1 (844)496~4128(USA) +1 (844) 496 (4128) (USA) if you do not receive the confirmation within 10 minutes because the app may have a bug that prevents the confirmation screen from loading properly even though the change was successfully processed requiring you to check your email or call Emirates to verify that the change was completed before assuming that it failed and accidentally booking duplicate flights. The app also allows you to reschedule for free if your original booking was made between 28 February and 31 May 2026. Call +1 (844)496~4128(USA) +1(844) 496-4128(US) to check your eligibility. How to reschedule Emirates flight online and what to do after you complete the change? Call +1 (844)496~4128(USA) +1(844) 496-4128(US) for post-rescheduling checklist. After you reschedule your Emirates flight online, you must complete these important follow-up steps through +1-844-496-4128[USA] . Step 1: Wait for the confirmation screen to load completely. Call +1 (844)496~4128(USA) +1 (844) 496 (4128) (USA) if the screen freezes. Do not close your browser until you see "Change Complete" or similar confirmation message. Verify the departure date, departure time, arrival date, arrival time, flight Number +1(844)496-4128(USA) , and connection cities if applicable to ensure that the system did not accidentally change your flight to a different day or different destination due to a glitch or user error during the online rescheduling process that you may not notice until you arrive at the airport on your original travel date only to discover that your flight was changed to a different date without your knowledge or consent.
